

Release time IMMEDIATE
Date 17 November 2020

LSE, MOEX, AIX: POLY / ADR: AUCOY

Polymetal International plc

Polymetal has been reaffirmed as a member of the Dow Jones Sustainability Indices

Following the 2020 Corporate Sustainability Assessment by S&P, Polymetal was added to the Dow Jones Sustainability Index (“DJSI”) World for the first time and retained its place in DJSI Emerging Markets.

Within DJSI, Polymetal has been rated as a sustainability leader in the Materials industry together with 16 other companies, having improved its score by 6 points compared to the previous year and remaining the only company in the index with major assets in the CIS.

The annual Corporate Sustainability Assessment conducted by S&P is aimed at highlighting companies leading in environmental, social and governance indicators, which are a key focal point of attention today for investors, policy makers, employees and other stakeholder groups.

“Our continuing membership in the DJSI indices means that not only have we retained the same level of corporate responsibility and information disclosure, but have also made significant progress in integrating sustainability into all areas of our business. We are proud of all our colleagues who are involved in maintaining high ESG standards that are set by our stakeholders and the company itself”, said Daria Goncharova, Chief Sustainability Officer of Polymetal.

OTHER RECENT SUSTAINABILITY ACHIEVEMENTS

- Earlier in October 2020, FTSE Russell reaffirmed Polymetal as a constituent of FTSE4Good Index Series with 4.4 score (out of possible 5) and 92 percentile.
- Polymetal is ranked 1st among its 60 peers worldwide in ESG Ratings issued by Sustainalytics which also estimated Polymetal's ESG Risks Rating as 20.3 (medium risk), placing the Company 3rd among 112 other precious metals companies. The ESG Risk Ratings measure a company's exposure to industry-specific material ESG risks and how well a company manages those risks.
- Polymetal's effective information disclosure has been acknowledged in leading international competitions. In 2020, the Company was awarded Best Communication of ESG by IR Magazine (Europe), and the bronze award was issued to Polymetal for the Best Printed Report (International Companies) by the Corporate & Financial Awards.

Forward-looking statements

This release may include statements that are, or may be deemed to be, “forward-looking statements”. These forward-looking statements speak only as at the date of this release. These forward-looking statements can be identified by the use of forward-looking terminology, including the words “targets”, “believes”, “expects”, “aims”, “intends”, “will”, “may”, “anticipates”, “would”, “could” or “should” or similar expressions or, in each case their negative or other variations or by discussion of strategies, plans, objectives, goals, future events or intentions. These forward-looking statements all include matters that are not historical facts. By their nature, such forward-looking statements involve known and unknown risks, uncertainties and other important factors beyond the company’s control that could cause the actual results, performance or achievements of the company to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding the company’s present and future business strategies and the environment in which the company will operate in the future. Forward-looking statements are not guarantees of future performance. There are many factors that could cause the company’s actual results, performance or achievements to differ materially from those expressed in such forward-looking statements. The company expressly disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statements contained herein to reflect any change in the company’s expectations with regard thereto or any change in events, conditions or circumstances on which any such statements are based.
